

Call for Papers

Dear Colleagues:

You are invited to submit your research paper for possible inclusion in a special issue of the Journal of Scientific Practical & Computing (JSPC, ISSN 1936-5020). JSPC is dedicated to young scientists including junior faculty and graduate students in the computing sciences. JSPC also welcomes survey and review papers from senior professors and scientists.

Information Security & Privacy is currently playing an important role in ensuring the security and reliability of modern computer systems and is having a significant impact on many activities in our daily lives. Since electronic privacy has become a major consideration in the operation and management of modern computer systems, new methods and tools, including a critical analysis of existing methods and tools are needed in order to have a better handle of new and emerging technologies. This Special Issue aims to provide a platform for security researchers to present new research and developments in the area. Areas of interest for this special journal issue include, but are not limited to, the following topics:

- Authentication
- Cryptographic algorithms and their applications
- Information Security Law
- Cryptanalysis
- Email security
- Electronic commerce
- Data integrity
- Fast cryptographic algorithms and their applications
- Identity-based cryptography
- IP security
- Key management
- Multicast security
- Computer network security
- Privacy protection
- Database security
- Security in Peer-to-Peer networks
- Security in sensor networks
- Smartcards

You will need to indicate your intention to submit your full paper by email to the guest editor with the title of the paper, authors, and abstract. The full manuscript, as PDF file, should be emailed to the guest editor by the deadline indicated below. Authoring guidelines will be mailed to you after we receive your letter of intent.

Please feel free to contact the guest editor, Moses Garuba, if you have any questions/concerns.

JSPC web address: <http://www.spclab.com/publisher/prelude.html>

Special Issue Theme: Information Security and Privacy

IMPORTANT DATES:

Intent to Submit: June 1, 2007

Full Version: November 2, 2007

Decision Date: February 1, 2008

Final Version: April 4, 2008

Guest Editors: Moses Garuba, Ph.D.
